

SpaceTech is a growing medium sized enterprise focused on the development of space systems, from small satellites to optical instrument and a range of satellite equipment. From our headquarters in Immenstaad at Lake Contance, Germany, we offer our international customers our products and services for their space missions.

Due to our continuous development, we are looking for a successor for the position of

Department Head - Mission Success (m/f/d)

At SpaceTech, Mission Success combines the disciplines of system engineering and quality assurance. This ensures close integration between the technical expertise of the two.

Your Responsibilities

- Technical and personnel lead of the department mission success, combining systems engineering and quality assurance
- Implementation and development of work processes as well as advancing standardization
- Development of department staff
- Personnel resource planning
- Recruitment of new employees
- Support the implementation of the company strategy
- You are reporting to the board of directors

Your Profil

- Comprehensive professional experience in at least one of the two areas: Systems Engineering or Product Assurance in the Space domain
- Basic professional experience in both areas
- Several years of experience in personnel management
- Proactive approach to problem-solving, pragmatism, flexibility
- Ability to work in a team, good communication skills
- Fluent in English and German

We Offer

- Design and development opportunities in a flat hierarchy
- Varying development tasks in a high-tech environment
- Profit sharing, company pension scheme, flexible home office arrangements, and more...

This position will require being eligible for clearance by the recognized authorities.
